Supplies & Tools

Supplies

5 m Nylon thread, transparent, Ø 0.25 mm
 Paper, patterned (front side) and green (back side), DIN A4
 Paper, blue (front side) and green (back side), DIN A4
 65 cm Wire, silver, Ø 1.2 mm

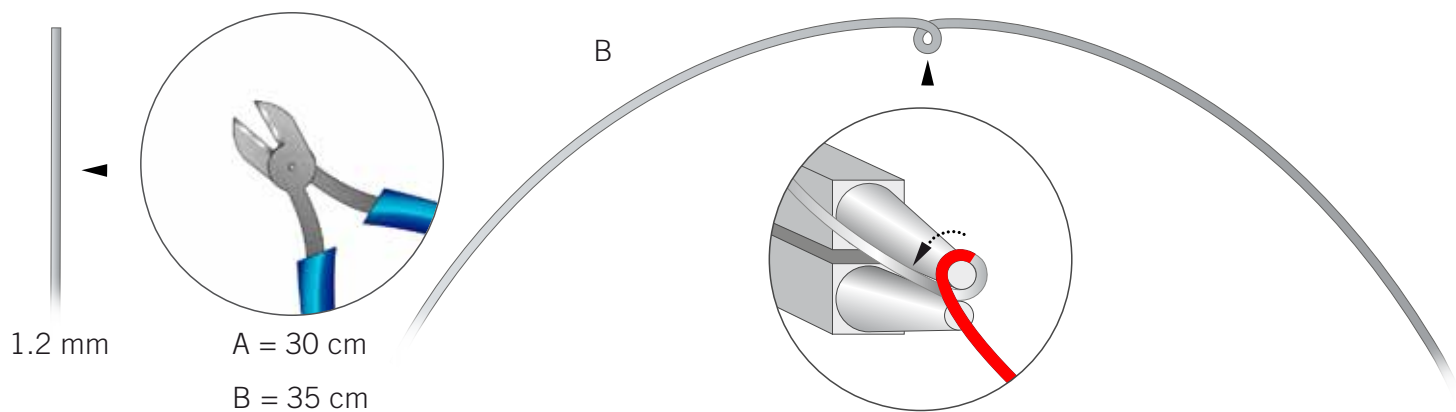

Tools

Double sided sticky tape
 Fine needle
 Round nose pliers
 Scissors
 Side cutter

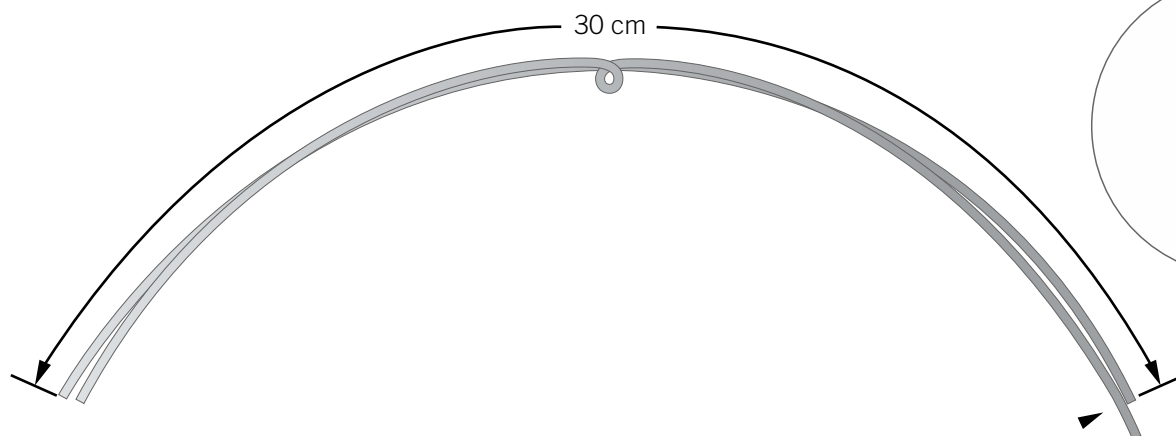

Level of design: INTERMEDIATE

CREATE YOUR STYLE with CRYSTALLIZED™ – Swarovski Elements Design Project

Kids Special: Fish mobile

- STEP 1: Cut a 35cm and 30cm piece of wire from the 1.2cm wire. Begin with the 35cm wire by forming a loop exactly at the centre of the wire length as depicted in the illustration.
- STEP 2: Cut the wire with the loop to a measure of 30cm and the loop should still fall exactly at the centre, (so you will have cut equal amounts off of both sides). Now both pieces of wire should be exactly the same length. Pull the un-looped wire through the looped wire as shown and form loops with round nose pliers at the ends.
- STEP 3: Cut 1.5m of the nylon thread and thread it through the centre loop of the wire and tie a knot as shown in the illustration. You should now have two thread ends one short and another longer one. Now thread a CRYSTALLIZED™ Bead article 5000 12mm through both of these ends, make several knots to secure and cut off the shorter end exactly after the bead.
- STEP 4: Cut a triangle of the paper with a blue and a green side, the side which you want for the fish should be on top for e.g. here it is blue and we would have a blue fish at the end.
- STEP 5: Fold the edges to the center as you see in illustration (dotted line is folding line). Then fold both flaps to the edges as arrows and dotted lines show in illustration and then unfold them. Turn the paper 180° and fold both flaps to the edges and then unfold them. Make creases on both sides by folding the paper in the middle. Insert fingers from the bottom and fold along the creases as you see in illustration. Repeat step on other side. Turn the fish around and then fold and unfold along dotted lines.
- STEP 6: Cut red marked section with scissors, turn the fish around and fold the two bottom flaps up along the dotted lines and unfold.
- STEP 7: Fold the parts as you see in illustration and repeat step on other side. Unfold and put some double sided sticky tape on paper to attach it and the refold. Your first fish is finished.
- STEP 8: Cut 70cm of nylon thread, slide it through CRYSTALLIZED™ Pendant article 6908 and attach it with a knot. Take care that you have one shorter end and one longer end. Cut shorter end off with scissors and slide longer one on needle. Pierce through fish with needle and thread as you see in illustration.
- STEP 9: Repeat steps four through eight 4 times to get 4 more fishes. Use measures of paper triangles as you see in illustration. Attach the fishes with CRYSTALLIZED™ – Swarovski Elements onto loops of wire as you see in illustration.
